## What I Can Do For You

My original background is in building architecture, and most recently I'm getting a certificate in full-stack web development to challenge myself into the world of information technologies. From my previous work history and education, I've established much of the needed soft and hard skills to work in a team environment. I would like to continue to fully utilize my current skills which I've acquired over the past 6 years while homing in the front-end and back-end skills as a web developer.

## Portfolio Work Samples

**GO HIKING! | Hiking trails and restaurant location application as a group project**  
*HTML, CSS, Bulma, jQuery, JavaScript, google fonts, Fontawesome, Mapquest API, hikingproject API, Openweathermap API, Zomato API* <https://pprewitt.github.io/TrailsApp/>

**WEATHER DASHBOARD | Simple weather app that uses an API to gather weather information** *HTML, CSS, jQuery, JavaScript, google fonts, Fontawesome, Openweathermap API, Moment.js* [https://EdenKhaos.github.io/06-weather\\_dashboard/](https://EdenKhaos.github.io/06-weather_dashboard/)

**WORK DAY SCHEDULER | Simple scheduler app uses moment.js**  
*HTML, CSS, jQuery, JavaScript, google fonts, Fontawesome, Moment.js* <https://EdenKhaos.github.io/05-work-day-scheduler/>

## Professional Experience

### 2016-2020 **EVSTUDIO | Denver, CO**

*Architectural Project Designer/Assistant Project Manager*

Advanced entry level position to assist and support PM's/PA's from programming to CA. Coordinated and implemented all phases of design. Participated in OAC meetings, field reports and lead portions of the CA process, such as answering RFI's and submittals.

### 2015-2016 **DAVIS PARTNERSHIP ARCHITECTS | Denver, CO**
